STATISTICS

OF

THE STATE OF QUEENSLAND

FOR THE YEAR

1938-39.

COMPILED FROM OFFICIAL RECORDS.

COLIN CLARK, Government Statistician.

By Authority: A. H. Tucker, Government Printer, Brisbane.

Districts.—All Statistics of Production will in future be compiled in Local Authority Areas and Statistical Divisions based on groups of them. During the year 1938-39 such Districts have been used for manufacturing Statistics only. The Statistical Divisions used to date for Primary Production Statistics are, however, based on groups of Petty Sessions Districts and differ slightly from those based on Local Authority Areas. Formerly Pastoral Statistics were based on the old Pastoral Districts. For the purposes of historical comparison, Live Stock Numbers have been continued for Pastoral Districts as well as Statistical Divisions.

a This is the value of cane delivered to mill tramways, &c. The State total includes £181,591 costs of transport, other than on the mills' own tramways, lorries, &c., and farmers' own carting, and levies on cane paid by growers and millers, amounting to £74,184.

(*b*) Including the estimated sugar content in a small quantity of "B" syrup sold to a distillery.

(*c*) This value represents net receipts from the Sugar Board, plus cost of sacks not accounted for, plus receipts from local sales of raw sugar. It is the value of the sugar when last handled by the mill employees, as sacks are supplied to mills free of charge, their value, other than the few not accounted for, is excluded from the value of the sugar output. Railage and loading charges are excluded.

(*d*) Value of raw sugar at 94 N.T. loaded on steamers at mill port, less lighterage on No. 1 pool sugar, which is paid by the Board, and is a pool expense. Lighterage on No. 2 pool sugar is a charge against individual mills. All sugar in No. 1 and No. 2 pools is included in this value, but the value of about 406 tons sold locally by the mills and not pooled is excluded.

5. MANUFACTURING.

Table No. 38.

SUMMARY OF FACTORY STATISTICS—QUEENSLAND.

(NOTE :—In this table heat, light, and power factories (Class xvi) are included).

Definition of Factory.—A factory for statistical purposes is an industrial establishment in which four or more hands are employed or in which power other than hand or horse is used.

Average Number of Persons Employed.—This information has been compiled in two ways—(*a*) Average number of hands over the whole year ; (*b*) Average number over the period of operation.

Value of Output.—This represents the selling price at the factory of all products manufactured during the year, whether sold or held in stock.

Value of Production.—This figure is arrived at by deducting from the value of output the cost of raw materials, containers, fuel, light, power, oil, water, tools replaced and repairs to buildings and plant. It has been agreed upon by the Australian Statisticians as being the best estimate at present obtainable of the contribution of factories to national wealth production. It is still subject to deductions for depreciation, and for postage, advertising, and similar expenses. Subject to these deductions, it represents the fund which provides wages and salaries, profits, interest, and rent.

a Exclusive of advances, totalling £243,000, made by the Commonwealth to the State of Queensland in terms of "*The Wire and Wire-Netting Advances Act of* 1927."

b Payable Overseas £3,191,518, Australia £2,033,519.

NOTE.—During the year ended 30th June, 1921, the addition to the Public Debt amounted to £10,592,088. The actual increase in the Loan Liability of the State was £4,625,172. The sum of £10,592,088 included £5,936,916, portion of the funds of the Queensland Government Savings Bank. It was the practice to make use of these funds towards meeting the cash requirements of the State. As no securities were issued for the sum used in this manner, the liability was not treated as part of the Public Debt. In terms of the Agreement under which the Queensland Government Savings Bank was transferred to the Commonwealth Bank in the year 1920, Queensland Government Securities for this sum had to be issued to the latter Bank, thus necessitating the addition of the amount to the Public Debt.

a Including applications in abeyance at end of previous year.

NOTE.—This Table refers to operations under "*The State Advances Corporation Buildings Improvement Act of* 1932." On 1st August, 1932, the Government, in order to assist in the relief of unemployment, inaugurated the "Building Revival Scheme," under which an owner of land on which a residence is erected, or a person who is acquiring a residence on a system of rent-purchase may obtain a loan for any of the following purposes:—(*a*) external and internal painting, (*b*) general repairs to preserve residence, (*c*) alterations, additions, and other improvements in respect of residences. The limit of any loan is £300; and, as far as practicable, the work is to be given to unemployed contractors and workers. Advances up to £500 may now be obtained for renovating Schools of Arts, and halls and buildings upon land owned by any agricultural or horticultural society.
